

ABHINAV SHARMA

Data Analyst

Charlotte, NC | (704) 281-2008 | abhinav.302001@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst with experience in healthcare IT and consulting environments, skilled in SQL, Python, Excel, Tableau, and Power BI. Currently analyzing Omnicell medication dispensing and EPIC EHR data at HCL America for operational reporting, root cause analysis, and KPI tracking. Strong foundation in statistical analysis, ETL, data validation, and dashboard development, backed by a Master of Science in Computer Science, and experienced in translating stakeholder questions into structured, decision-ready analyses.

TECHNICAL SKILLS

SQL & Databases: SQL (joins, window functions, CTEs, query optimization), Microsoft SQL Server, MySQL

Programming: Python (pandas, NumPy, Matplotlib), R

Visualization & BI: Tableau, Power BI (DAX, slicers, drill-through), Excel (Pivot Tables, VLOOKUP, charts), KPI reporting, dashboard design

Analytics & Statistics: Exploratory Data Analysis (EDA), hypothesis testing, regression, clustering (K-Means), decision trees, root cause analysis, trend analysis, forecasting

Data Management: ETL, data cleaning, data transformation, data validation, data quality checks, data reconciliation, data integration

Cloud & Tools: AWS, Azure, Git/GitHub, SharePoint, SAP C4C, Agile/Scrum

Healthcare Systems: EPIC EHR, Omnicell, HIPAA-compliant data handling

PROFESSIONAL EXPERIENCE

HCL America, Inc. — Associate Consultant (Data Analyst)

01/2026 – Present

Client: Omnicell (Healthcare IT) • Charlotte, NC

- Analyze Omnicell medication dispensing and inventory data using optimized SQL Server queries to surface operational trends, bottlenecks, and root causes, helping cut report turnaround from hours to minutes for clinical and operations teams.
- Handle and analyze ~30 support tickets per day in SAP C4C, using SQL and MySQL to detect recurring data and application issues and reduce mean-time-to-resolution.
- Integrate and reconcile data across 2 enterprise healthcare systems (EPIC EHR and Omnicell inventory), performing data quality checks and gap analysis to improve workflow accuracy.
- Contributed to building and maintaining 5 Tableau dashboards tracking medication dispensing KPIs, equipment shipments, and operational metrics for clinical and supply chain teams.
- Translate business questions from 3+ clinical, operations, and finance departments into structured SQL and Python analyses within HIPAA-compliant data pipelines.

Quest Consulting LLC — Data Analyst (Trainee)

07/2025 – 01/2026

Remote — Dallas, TX

- Collected, cleaned, and preprocessed data from multiple sources to ensure accuracy, completeness, and consistency for downstream analysis and reporting.
- Analyzed large datasets using SQL, Excel, and Python, applying statistical techniques to identify trends and patterns supporting business decision-making.
- Performed exploratory data analysis (EDA) to uncover trends and outliers and built Power BI and Excel dashboards to track KPIs for cross-functional stakeholders.

Society of Hispanic Professional Engineers, UNC Charlotte — Webmaster

05/2024 – 05/2025

- Analyzed user engagement data and built reports whose insights drove a 75% increase in monthly newsletter open rates; maintained backend systems and gathered requirements from stakeholders.

PROJECTS

Financial Fraud Detection — Predictive Modeling ([GitHub](#))

Python, scikit-learn, SQL

- Built a classification model (logistic regression, decision trees) to flag fraudulent transactions, with feature engineering and data validation on an imbalanced dataset.

End-to-End Regression Pipeline for Market Price Forecasting ([GitHub](#))

Python, ETL, pandas

- Architected a full ETL pipeline for data integration and transformation and deployed a regression model to forecast prices from market research data.

NYC Taxi Trips — Exploratory Data Mining at Scale ([GitHub](#))

Python, Spark, Matplotlib

- Performed large-scale EDA on NYC taxi trip data to surface customer behavior and usage patterns, building visualizations and dashboards of operational trends.

EDUCATION

University of North Carolina at Charlotte — M.S. in Computer Science (AI, Robotics & Gaming)

08/2023 – 05/2025

DIT University — B.Tech in Computer Science and Engineering

08/2019 – 05/2023

Certifications: Python Data Structures — University of Michigan | Programming for Everybody — University of Michigan
